WOMAN: When I moved to Ocean County not long ago, I was so worried ... how long would it take me to find the right dentist, the best places to shop, a good veterinarian? Luckily for me, one thing I *didn't* have to worry about was the right OB-GYN, because my first week, one of the women I work with recommended WOMAN TO WOMAN. WOMAN TO WOMAN is the only all-female practice in Ocean County, and Doctors Lesley Furman, Deborah Bieter-Schultz, and Lisa Vernon made me feel comfortable right away. For one thing, they don't lecture – they actually listen. And the other thing I liked was that their patients include women of all ages, from teenagers to grandmothers. In fact, my mother was so impressed with what I told her, *she* decided to go to them when she came down to visit. And it's so convenient: their Forked River office is about a mile from my house, and they've also got one in Toms River near my office. I'm still trying to find someone good to take care of my *puppy* ... but I couldn't be happier with who I found to take care of *me*.
